ONLY MARVEL HAS THE CAPACITY FOR LUXURY
New Undercounter Refrigeration Introduces Industry's First 30-Inch Models

RICHMOND, Ind., May 10, 2005—Expanding upon the extraordinary success of its premiere *Chateau Collection* line of luxury undercounter beverage refrigerators and wine cellars, MARVEL is launching two new models, which share the distinctive features of this top-of-the-line brand, yet span an industry-leading 30 inches across, making them both bold design statements as well as capacious models. The new *8SWC* and *8SBAR* offer wine and beverage storage capacities that are exclusive only to MARVEL.

The *Chateau Collection 8SWC* and *8SBAR* offer more than just the largest capacities of any undercounter models on the market. They are immediately recognizable as MARVEL flagship models, distinguished by their luxurious styling, dual-paned, UV-resistant, tempered glass doors, stunning industry-first ebony interiors, elegant recessed lighting and glide-out shelves faced with the finest select maple (which can be painted or stained to complement any décor).

These models also feature such MARVEL technical hallmarks as whisper-quiet compressors that are the most powerful in their class, full auto defrost, forced air ventilation and microprocessor thermostats for precise temperature control.

With six glide-out racks and one fixed rack, the *8SWC* wine cellar can accommodate up to 74 various shaped bottles, including magnums. The *8SBAR* beverage and wine refrigerator features dual temperature zones and can accommodate up to 19 wine bottles and an astounding 162, 12-ounce canned beverages. The wine section of the *8SBAR* boasts a glide-out wine shelf and a stationary cradle, while the beverage section offers two glide-out glass shelves, as well as MARVEL's innovative flip-up top shelf to vertically store 2-liter and opened wine bottles.

MARVEL is a leading manufacturer of luxury undercounter refrigeration products, including wine cellars, beverage and wine refrigerators, outdoor refrigerators, ice machines, beer dispensers and more. For complete information about the new *8SWC* and *8SBAR* models, contact MARVEL, an Aga Company, at (800) 428-6644 or visit www.lifeluxurymarvel.com.
